DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, Claim(s) 23-35, 40, 43-44, drawn to a video screen hologram and a method for producing a video screen hologram.

Group II, Claim(s) 36-39, 41-42, 45-46, drawn to a device for producing a video screen hologram.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I has special technical features directed toward means for making a plurality of individual recordings, in each case only a partial area of the real video screen being illuminated, so that a video screen hologram of the entire video screen is obtained by a composition of the individual recordings, which are not required for Group II. Group II has special technical features directed toward the laser source and the light source being arranged such that light emanating from the video screen is superimposed with a reference beam in order to produce a hologram of the video screen, which is not required for Group I.
3. A telephone call was made to Gary R. Edwards (202-624-2500) on 9/23/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37

CFR 1.143).
